- TailwindCSS, Bootstrap, JQuery
- Python , C#, Django
- HTML, CSS, JS
- Cpanel (Vps, Hostinger, Domain)
- AWS
- AI tools of debugging cases

Language

- English
- Japan

About Me

Since 2024, I have built a career as a Web Developer specializing in high-performance interfaces and exceptional front-end craftsmanship using React and Tailwind CSS. Beyond my technical stack, I am an impactful educator who excels at breaking down complex concepts for others. I bridge the gap between robust engineering and stunning design, bringing two years of hands-on experience and a passion for teaching to every project.

Experience

2025 - 2026

MyanPro Solutions | Little Code Lab

Wordpress Developer | Teaching INstructor

I have been operating as a Technical Instructor, mentoring students in web programming while simultaneously delivering professional remote WordPress projects. By balancing high-level teaching with real-world development, I ensure my development expertise remains sharp while empowering the next generation of developers.

2024 - 2025

Golden TKM IT Education Center

Web Developer | Teaching Instructor

I served as a technical instructor mentoring students on their projects while specializing in React and WordPress development. During this time, I successfully channeled my front-end craftsmanship into high-impact work, including a specialized WordPress site dedicated to the Five Great Buddhas of the Shwedagon Pagoda.

2022- 2024

OHAYO Japanese Language Center | Golden TKM IT Education Center

Junior Web Developer

Building on a foundation of ITPEC IP and FE certifications and a rigorous OJT internship, I am a Frontend Web Developer with two years of experience (2022-2024) in crafting high-performance Laravel and Bootstrap interfaces.
